

NEWSLETTER #1

Dear Partners, Colleagues and Friends...

We are happy to present you the 1st newsletter of our new project "Thinking...Coding"! Through these newsletters we will inform you about the main project achievements, and we will be glad if you wish to follow us closer... we will let you know how!

'Thinking...Coding'

Thinking...Coding is a two-year European project designed and implemented by organizations from **Italy, Romania, Slovenia, Greece, Turkey** and **Former Yugoslav Republic of Macedonia** under the [Erasmus + Programme](#) - Strategic Partnerships for Schools, funded by the European Commission.

The **general objective** of the project is **improving the skills and competences** of teachers and pupils in the computational thinking (Coding) to empower people of all groups in our society, and ensure the global competitiveness of Europe.

The project aims to develop two different levels of activities:

- **On the teachers and school organization:** to improve competences of teachers and educators and to identify and share a flexible teaching method based on useful tools of coding;
- **On students** to improve their digital and coding skills.

Kick-off meeting in ITALY

On the 28th and 29th of January 2016 in Bitonto, the 1st Transnational Project Meeting was held. During the meeting, we discussed about the project management, each partner's role, and the planning of the next steps, coaching activities and related deadlines.

Follow the project

The dissemination of the projects' results is very important for the general public. Consequently, we are preparing the project website as the main tool of communication.

All interesting information of the project can also be found on our [Facebook Page](#).
